

Guitar	
Month	Topic
April & May	Introduction to Guitar Beginner Finger practice Right & Left Hand
July & August	Holding Pick and Strumming Finger Position Thumb Position
September & October	How to Read Guitar Tabs
November & December	Beginner Scale
January & February	Beginner Scale and Song Melodies understand chord chords.

CLASS 6

(40)

CLASS VI 2020 - 2021	
ENGLISH	1. ENGLISH FOR THE NEW WORLD (LITERATURE READER) 2. ENGLISH FOR THE NEW WORLD (READER)
HINDI	1 वसंत - 1 (एन.सी.ई.आर.टी) (पद्य पुस्तक) 2 बाल रामकथा (एन.सी.ई.आर.टी) (पूरक पुस्तक) 3 हिंदी व्याकरण तथा रचना
MATHS	1 MATHEMATICS VI (NCERT) 2 MATHEMATICS ACTIVITY BOOK 3 WORK BOOK
SOCIAL SCIENCE	1 Our Pasts-I (History) (N.C.E.R.T) 2 The Earth - Our Habitat (Geography) (N.C.E.R.T) 3 Social and Political Life-I (N.C.E.R.T)
SCIENCE	1 SCIENCE A TEXTBOOK FOR CLASS VI (N.C.E.R.T)
SANSKRIT	बाल संस्कृत कणिका भाग-1
FRENCH	1 MON PASSEPORT POUR LE MONDE PART-2 (MAIN COURSE) 2 MON PASSEPORT POUR LE MONDE PART-2 (WORK BOOK)
GENERAL KNOWLEDGE	KNOW FOR SURE
VALUE EDUCATION COMPUTER Art & Craft	WINGS OF LIFE CLICK TO LEARN

Class 6

(1)

Music		
Month	Periods	
April to May		Sargam - 10 Ekgun and Dugun in harmoium.
July to August		National Anthem (Nation) Play with Harmonium and/Prayer Song
September to October		Vandematram (Nation) Learn with Harmonium Patriotic Song (1) Folk Song
November to December		Any Prayer Songs (Nation) Learn with Harmonium Occasion and the funcation with which they are related
January to Feb.		To / Revision

CLASS 6

(38)

Tabla Syllabus		
Month	Topic	Periods
April May	Learn Hand practice boles and Practice to all Learn About Table Body Parts and Main Boles	4 4
July August	Learn Teen taal Theka and Practice Parkar's and one kayda.	2 4
September October	Learn Talk keherwa and palta of 1st Kayda and Tihay	3 3
November December	Learn Taal Dadra with prakars. Learn kayda two in teen taal.	3 3
January	Practice all theka and kayda with palta's and prakac	4 3
	Take practical test

मार्च 4	पुनरावृत्ति	पुनरावृत्ति	पुनरावृत्ति	पुनरावृत्ति	
वार्षिक परीक्षा 2020-21					
<p>शिक्षण उद्देश्य</p> <p>गद्य – भाषा की साहित्यिक संपदा वर्तनी तथा उच्चारण, वाक्य रचना, नाटक द्वारा भाषा के व्यवहारिक रूप आदि द्वारा भाषा के विभिन्न कौशलों का विकास करना।</p> <p>पद्य – भाषा के पद्यात्मक रूप से परिचय करवाना, व्याख्या द्वारा भाषा में अभिव्यक्ति का संवर्धन, प्रश्न निर्माण, कल्पनाशीलता, कौशलता, विद्यार्थी की सृजनशीलता का विकास करना।</p> <p>व्याकरण – उच्चारण एवं वर्तनी, संधि, लिंग, वचन, विभक्ति, शब्द रचना प्रयोग आदि व्याकरण बिन्दुओं द्वारा भाषा के विकास और छात्रों की भाषिक क्षमताओं का विकास करना।</p>					

CLASS 6

(8)

Art & Education		
Month	Content / Topic	Learning Objectives
April 4	Typography Colour Wheel	Student will learn to write their Names on file in proper Manner. Student will learn the basic knowledge Primary.
May 4	Water Colouring Shading	Student will learn the use of water colour & Pencil shade.
July 4	Prespective Land Scape	Student will learn to draw objects.
August 4	Forms & Stick Drawing	Students will learn the basic knowledge to draw stick drawing and forms.
September 2	Completion of work & Mid Term Exam.	

CLASS 6

(33)

Art & Education		
Month	Topic / Activities	Craft Work
October 4	Composition Drawing	Students will learn to sketch and colour.
November 4	Poster Making Thumb Impression	Students will learn the difference between drawing and poster.
December 4	Figures Card Making	Students will learn and enjoy craft Activity
January 4	Book Mark Paper Collage	Students will learn to make paper collage.
February 4	Completion and Collection of Work	
March	Annual Exam.	

CLASS 6

(34)

Maths				
Month & Periods	Unit	Content	Learning Objectives	Activities
April (30)	Number System	Ch - 1 Knowing our numbers Indian System of Numeration, International System of numeration, Uses of commas, Comparison and Formation of numbers, Estimation, Roman numerals	<ol style="list-style-type: none"> 1. To read and write numbers in the Indian and the International system of numeration. 2. To understand the rules of estimation and round off the given numbers to nearest tens hundreds thousands and so on 3. To use simple brackets for representing mathematical statement and solve problems 4. To understand the rules to be followed for writing roman numerals. 	To verify that addition is commutative for whole number, by paper cutting and pasting.
		Ch-2 Whole Number Number line, Properties of whole numbers, Number patterns in whole numbers	<ol style="list-style-type: none"> 1. To learn different properties such as closure, commutative, associative, distributive. 2. To apply the properties of whole numbers to solve mathematical problems 	
May (24)	Number System	Ch - 3 Playing with numbers Factors and multiples, Types of natural numbers, Divisibility tests of natural numbers, prime factor- sation HCF & LCM by using division method	<ol style="list-style-type: none"> 1. To find out factors and multiples of the given numbers 2. To identify even and odd numbers 3. To identify prime and composite numbers 4. To test the divisibility of given numbers by 2,4,8,3,6,9,10 and 11 5. To calculate HCF and LCM of the given numbers 	Worksheet

CLASS 6

(9)

Maths				
Month & Periods	Unit	Content	Learning Objectives	Activities
July (24)	Geo.	Ch-4 Basic Geometrical Concept Points, Line, Parallel lines, intersecting lines, Curves, Ray angles, polygons, Quadrilateral, Circle.	<ol style="list-style-type: none"> 1. To define a line, a line segment and a ray 2. To identify intersecting and parallel lines. 3. To define a curve and a polygon 4. To define a triangle, a quadrilateral, a circle and reorganise its path 	To locate the center of a circle and then to calculate the radius
	Geo.	Ch-5 Understanding Elementary shapes comparison and measuring of line segments measuring of an angle, types of angles, types of triangle, types of Quadrilaterals, Classification of polygon three dimensional shapes	<ol style="list-style-type: none"> 1. To compare the lengths of the given line segments 2. To define different types of angles 3. To classify triangles based on length of the sides and measure the angles 4. To define and understand the properties of quadrilaterals 5. To name different polygons 6. To identify faces vertices and edges of 3D shapes 	To make the following by folding of a circular cutout of a paper- (i) chord (ii) diameter (iii) minor sector (iv) major sector
August (25)	Number System	Ch-6 Integers Representation of integers on number line, absolute value of an integer, Comparison of integers, addition and subtraction of integer	<ol style="list-style-type: none"> 1. To define integers 2. To represent integers on a number line 3. To perform the operations of addition and subtraction on integers 	To add integers by cutting and pasting

CLASS 6

(9)

Maths				
Month & Periods	Unit	Content	Learning Objectives	Activities
	Number System	Ch-7 Fractions Fractions on number line, Types of fraction, Simplest form of fraction, comparison of fraction, addition and subtraction of fraction	1. To define a fraction and give examples of fraction 2 To represent fraction on number line 3. To define different type of fractions 4. To identify equivalent fraction and reduce a given fraction to its simplest form 5. To compare two or more fractions 6. To add and subtract like fractions and unlike fractions	Worksheet
Sep. (15)		Ch-7 Fractions (Contd) Comparing like fractions, Comparing unlike fractions, Addition and subtraction of like fractions, Addition and Subtraction of unlike fraction Addition and Subtraction of mixed fractions.		Worksheet
Revision		Mid Term Examination		
October (28)	Number System	Ch-8, Decimal Decimals on number line, Fractions as decimals,	1. To understand decimal fraction 2. To understand the place value of digits in a decimal number	To represent decimal number on a 10X10 grid by shading

CLASS 6

(9)

Maths				
Month & Periods	Unit	Content	Learning Objectives	Activities
	Statistics	decimals as fractions, place value, of numbers, comparing decimals, addition and subtraction of decimals. Ch-9 Data Handling Raw Data, Organizing data, Pictograph, Reading and Drawing of Bar Graph	3 To compare two or more decimal numbers 4. To convert decimal to fraction and vice versa 5. To add and subtract decimal numbers 6. To apply the knowledge of decimals numbers to solve problem related to real life situation 1. To know the meaning of real data 2. To organise data using tally marks 3. To represent data using pictures 4. To read and interpret pictographs and bar graphs	To collect the data from all students of your WHO spent more than two hours in watching T.V. Represent the data using bar graph.
Nov. (25)	Mensuration	Ch-10 Mensuration Perimeter of rectangle and regular shapes, Area of rectangle and square	1. To define perimeter of closed shapes 2. To calculate perimeters of given shapes 3. To define areas of closed figures 4. To calculate the area of rectangle and square 5. to apply the concept of perimeter and area solving problems related to our day to day life	To find area of irregular shapes using square grid papers.

CLASS 6

(9)

Maths				
Month & Periods	Unit	Content	Learning Objectives	Activities
Dec. (28)	Algebra	Ch - 11 Algebra Variables and constants, use of variables, algebraic expressions and their formation equation.	<ol style="list-style-type: none"> 1. To know the difference between variables and constants 2. To define and frame algebraic expression 3. To understand the term algebraic expression 4. To solve a given equation 	Worksheet To determine the number of line of symmetry of regular polygons.
		Ch-13 Symmetry Symmetry of some figures, Reflection and symmetry.	<ol style="list-style-type: none"> 1. To identify symmetrical shapes in and around your surroundings. 2. To recognise the lines of symmetry in shapes 3. To draw lines of symmetry for symmetrical shapes 4. To create symmetrical shapes 	
Jan. (24)	Algebra	Ch - 11 Ration and Proportion.	<ol style="list-style-type: none"> 1. To know the meaning of terms ratio and proportion. 2. To define equivalent ratios 3. To verify wheather the given ratios are in proportion or not 	Worksheet

CLASS 6

(9)

Maths				
Month & Periods	Unit	Content	Learning Objectives	Activities
			<ol style="list-style-type: none"> 4. To compare ratios. 5. To use unitary method to solve related problems 	
Feb. (25)	Geo.	Ch - 14 Practical Geometry Construction of circle, line segments perpendicular, perpendicular bisector, construction of angles (60,120,90,45,135) and angle bisectors.	<ol style="list-style-type: none"> 1. To construct line segments of given lengths. 2. To construct circles of given radius 3. To construct perpendicular lines to a given line 4. To construct angles of special measures- 30 deg., 60 deg., 90 deg, 120 deg., 135 deg., 45deg using ruler and compass 5. To bisect an angle and a line segment using ruler and compass 	To Make pro tractor by paper folding
March		Revision		

CLASS 6

(9)

SOCIAL SCIENCE				
Month & Periods	Unit	Contents	Learning Objectives	Suggested Activities
April 20	History	Ch- 2 On the trail of the earliest people	Students will be able to identify different kinds of stone tools and their use.	Draw different kinds of tools used by people during stone age.
	Geography	Ch-1 Earth as part of solar system	Students will be able to understand the unique place of Earth in the solar system	Find out names and pictures of the artificial satellites of India. Paste their pictures and find out the information about aryabhata
May 18	Civics	Ch-1 Understanding Diversity	Students will be able to understand and appreciate various forms of diversity in their everyday environment	Make a questionnaire and ask the students of your class to give following information- 1. Name 4. Dress 2. State 5. Food 3. Mother Tongue 6. Religion
	History	Ch- 4 In the earliest cities	Students will be able to appreciate remarkable features of Harappan civilisation.	Make a comparison between Harappan cities and modern day cities
July 16	Geography	Ch-2 Globe: Latitudes and Longitudes	Students will be able to understand the importance of Longitudes and Latitudes to find out location of a place on globe	a) Prepare a chart on different heat zones on Earth b) Name the states of India through which the tropic of cancer passes

Class 6

(16)

SOCIAL SCIENCE				
Month & Periods	Unit	Contents	Learning Objectives	Suggested Activities
	Civics	Ch- 3 What is Government?	a) Students will be able to gain a sense of why government is required b) They will be able to recognise the need for Universal Adult Franchise in making of government	Conduct a classroom election for the post of monitor through ballot paper
August 22	History	Ch- 7 New questions and ideas	Students will be able to outline the basic teachings of Buddhism and Jainism	Paste the picture of Buddha and Mahavira. State the teachings which you will follow now a days
	Geography	Ch- 3 Motions of the Earth	Students will be able to compare how revolution and rotation lead to the formation of days and nights and seasons respectively	Prepare a labeled diagram of revolution of Earth and formation of seasons
Sep. 10	Civics	Ch- 4 Key elements of a democratic government	Students will be able to understand key elements that influence the functioning of democracy	Make a project/report on- How B.R Ambedkar fought against untouchability. Is it still practiced or not ?

Class 6

(16)

SOCIAL SCIENCE				
Month & Periods	Unit	Contents	Learning Objectives	Suggested Activities
Unit Test1 (July) History Ch 2 and 4, Geography Ch 1, Civics Ch1 Mid Term Examination (September) History Ch 4 ad 7, Geography Ch 1, 2 and 3Civics Ch 3 and 4				
October 20	History	Ch- 8 Ashoka the emperor who gave up war	Students will be able to appreciate the great Mauryan empire and the contribution and achievements of Great Emperor Ashoka	Paste the pictures of Lion capital of the Sarnath Pillar. How in present day India, it has given recognition as- 1. National Emblem 2. Figure on Indian Currency 3. The wheel of National Flag
	Geography	Ch- 4 Maps	Students will be able to develop basic skills of map reading.	a) Organise a game based on Atlas by asking names of countries and their capitals b) Role Play- Globe v/s Map Group Activity (4-5 groups)
Nov. 22	Civics	Ch- 5 Panchayati Raj	Students will be able to understand local level of government functioning	Write a report on problems faced by the villagers. Also make suggestions on their solutions.

Class 6

(16)

SOCIAL SCIENCE				
Month & Periods	Unit	Contents	Learning Objectives	Suggested Activities
	History	Ch- 11 New Empires and Kingdoms	Students will be able to appreciate that how often great Mauryan empire, new kingdom emerged and importance of prashastis.	Write a prashasti patra about samudragupta from pillar inscription 1. Name of the king 2. Brief life sketch of the king 3. His contribution in different fields
Dec. 24	Geography	Ch- 5 Major domains of the Earth	Students will be able to understand inter relationships of the four realms of the Earth	Divide the class into 5 group assign one ocean to each group. Let each group prepare a class presentation on it.
	Civics	Ch- 6 Rural Administration	Students will be able to know the role of police, patwari and tehsildar for better functioning of villeges.	Prepare a flowchart of villege and various pillars who support in smooth functioning of villeges.
January 14	History	Ch- 12 Buildings, Paintings and Books	Students will be able to develop a sense of appreciation of textual and visual tradition of period	Paste pictures of Sanchistupa, iron pillar and describe about them in few lines.

Class 6

(16)

SOCIAL SCIENCE

Month & Periods	Unit	Contents	Learning Objectives	Suggested Activities
	Geography	Ch- 7 Our County India	Students will be able to comprehend major physical and political division of India	Prepare a collage on theme- Unity In Diversity 1. Different Landforms 2. Different religion, dresses
Feb. 20	Civics	Ch- 8 Rural Livelihood	Students will be able to understand different types of livelihood and farmers prevalent in village	Paste or draw pictures of people show lifestyles of villages 1.farmers 2.Fisheing etc.

Unit Test 2 (December) History Ch8 and 11, Geography Ch 4, Civics Ch5
Annual Examination (March) History Ch11,12 and 7
Geography Ch 3, 5 and 7
Civics Ch 3,6 and 8

SCIENCE				
Month & Periods	Unit	Content	Learning Objectives	Suggested Activities
April 20	Ch- 1.Food where does it comes from? Ch- 2.Components of food	a) Food and Nutrition b) Sources of food c) Components of food d) Food habits of animals e) Balanced diet f) Health and diseases	a) To understand the importance of food and nutrients b) To know the Sources of food c) To know about components of food d) To classify animals on the basis of food habits e) To understand the importance of balanced diet f) To understand the importance of health	a) Test the presence of starch in different food items b) to prepare a chart on food habits of animals
May 17	Ch- 6.Changes around us Ch- 10.motion and measurement of distance	a) Changes b) Types of changes a) Measurement in ancient times b) Standard units of measurement c) Accuracy in measurement d) Motion	a) To identify the types of changes b) To distinguish one kind of change from another c) To be able to give examples of various changes a) To know the method of measurement in ancient times b) To understand need for standard units of measurement c) To measure distance correctly by avoiding common errors d) To describe various means of transport e) To understand different types of motions	a) To observe reversible and irreversible changes in ballon and paper a) To measure the length of a curved line

Class 6

(21)

SCIENCE				
Month & Periods	Unit	Content	Learning Objectives	Suggested Activities
July 19	Ch- 5. Separation of substances Ch- 11.Light, shadow and reflection	a) Mixture b) Types of mixture c) Methods of Separation a) Light b) Sources of light c) Shadow d) Reflection	a) Differentiate between mixture and pure substances b) To analyse different types of mixtures and need to separate various components of a mixture c) To know about various methods of separation a) To study about light and its importance b) To distinguish between transparent, translucent and opaque objects, c) To analyse the sources of light d) To understand the relationship between light sources and shadow e) To understand the concept of reflecting surfaces	a) Separate mud and water from muddy water by- (i) Sedimentation (ii) Decanation (iii) Filtration a) Make a pin hole camera b) Take ten reflecting surfaces like a mirror glass, television screen, a steel plate etc. study the reflection of your images from each surface and find out which is smooth or rough
August 20	Ch- 8. Body movements	a) Human body b) Gait in animals c) Skeleton system	a) To know about structure and functions of human body b) To study movement in different animals c) To analyse the human skeleton system and its functions	a) With the help of clay make model of different types of joints

Class 6

(21)

SCIENCE				
Month & Periods	Unit	Content	Learning Objectives	Suggested Activities
Sep. 10	Ch- 15. Air around us	a) Composition of air b) Importance of air	a) To understand the importance of atmosphere and composition of air b) To evaluate the fact that air supports life	a) Make a collage using articles/pictures on environmental issues
October 21	Ch- 7. Getting to know plants Ch- 3. Fibre to fabric	a) Types of plants b) Parts of plants c) Flower d) Interdependence between living organisms a) Fibre and fabric b) Fabric from yarn c) History of clothing	a) To differentiate between herbs, shrubs and trees b) To know the function of different parts of plants c) To understand the structure of flower d) To know about the interdependence of living organisms a) To study different types of clothing material b) To understand different methods to get fabric from yarn c) To recall the brief history of clothing	a) To show that stem conducts water a) To show how weaving is done using paper strips
Nov. 18	Ch- 12. Electricity and circuits	a) Current b) electricity c) Components of torch d) Conductors and insulators	a) To explain using real world analogies the meaning of current and circuit b) To study the importance of electricity c) to know about various parts of torch d) To differentiate between conductors and insulators	a) To make a home made torch/electric circuit using best out of waste

Class 6

(21)

SCIENCE				
Month & Periods	Unit	Content	Learning Objectives	Suggested Activities
	Ch- 4. Sorting of substances	a) Matter b) Properties of matter c) sorting	a) To understand matter and its states b) To study properties matter c) to know about importance of sorting and the basis of classification	a) Test the solubility of chalk powder, salt, sugar, sawdust
Dec. 23	Ch- 14. Water Ch- 13. Fun with magnets	a) Water b) three states of water c) Water scarcity a) Magnetic substances b) Properties of magnets c) Uses of magnets	a) To understand the importance of water b) To study about the three states in which water exists c) To understand the problem and reasons of water scarcity a) To differentiate between magnetic and non magnetic substances b) To analyse properties of magnets c) To know about uses of magnets	a) To estimate daily water usage in your family a) To find north pole and south pole of a bar magnet b) To observe the attraction and repulsion peoperties of a magnet
Jan. 16	Ch- 9. Living organisms and their surroundings	a) Habitat b) Types of habitat c) Adaptation d) Adaptation in living organisms	a) To understand different components of habitat b) To study about various types of habitat c) To differentiate between adaptation and acclimatisation d) To highlight the adaptation in various animals	a) To prepare herbarium speciman of different leaves b) Make a collage with pictures of plants and animals found in different habitats

Class 6

(21)

SCIENCE

Month & Periods	Unit	Content	Learning Objectives	Suggested Activities
Feb. 20	Ch- 16. Garbage in and out	a) Types of waste b) 3R's c) Reducing waste	a) To differentiate between biodegradable and non biodegradable substances b) To understand the importance of 3R's c) To understand the method of reducing waste	a) Role play on Plastic- A Boon or a Curse
March	Revision
